### “Something’s Fishy”

Hello friends.

A handful of fish does smell fishy, but it also smells like dinner... Our fish ponds and gardens are a wonderful blessing to feed the hungry.

Hopefully this week we will be able purchase an additional 1,200+ baby catfish for the fish pond. It will take about 7 months for them to grow up big enough for the dinner plate. Our current crop of Tilapia (fish) is rated very delicious by a young malnourished boy and his family. He enjoyed it enough to ask his papa, “Please ask Uncle Darrell for some more.” ;-)

At the same time we are increasing the number of fish, there will be at least six new garden plots (4' X 8') to grow more vegetables; beans, egg plants, peppers, cucumbers, tomatoes, onions, peanuts, bananas, watermelon, corn, etc. Thanks to the fish, the plants grow about twice as fast as normal since we recycle and clean the fish pond removing the valuable nitrogen, via the garden’s rock beds.

It all works together the way God originally created His garden. We use all natural fertilizers. And we are careful to keep the garden clean of potentially dangerous chemicals. It is a learning process, and our vision is a lot of food!

We believe the Lord will help us to produce ‘more than enough.’ That’s the definition of “**abundance**”... Something the poor don’t have much of. It won’t happen overnight but we’ll keep working on it.

Serving the King & feeding His hungry kids,  
 Darrell & Sandy Blatchley

P.S. Prayers appreciated for the property payment needed this month... Information is on the website.
